Hook Kit
(1 Hole)**
K671425-9

Sea-Lect Designs Hardware Kits

What are “-9” hardware kits? We have taken our most popular hardware items and made them into kits. All kits include hardware items, fasteners, and installation instructions that simplify what retailers must stock in order to meet their customer’s needs. When your customer leaves the shop with one of our kits, they will have all the parts and knowledge necessary to successfully install our hardware on their boat.

KIT INCLUDES

RECOMMENDED TOOLS

Nuts & Washers

For installations with access to backside of mounting surface, use nuts & washers.

Well Nuts

For installations without access to backside of mounting surface, use well nuts.

Install Visualization

The front of every kit shows what the successfully completed project should look like, helping you find the perfect item for your specific needs.

Kit Includes

All instructions show everything included in the package, assuring that the kit contains everything required to install the product on the first try.

Recommended Tools

When starting a project it helps to know from the start everything you will need to finish the project in a timely manner. We have listed all the tools and sizes required to do the job right.

Choosing your Fastener

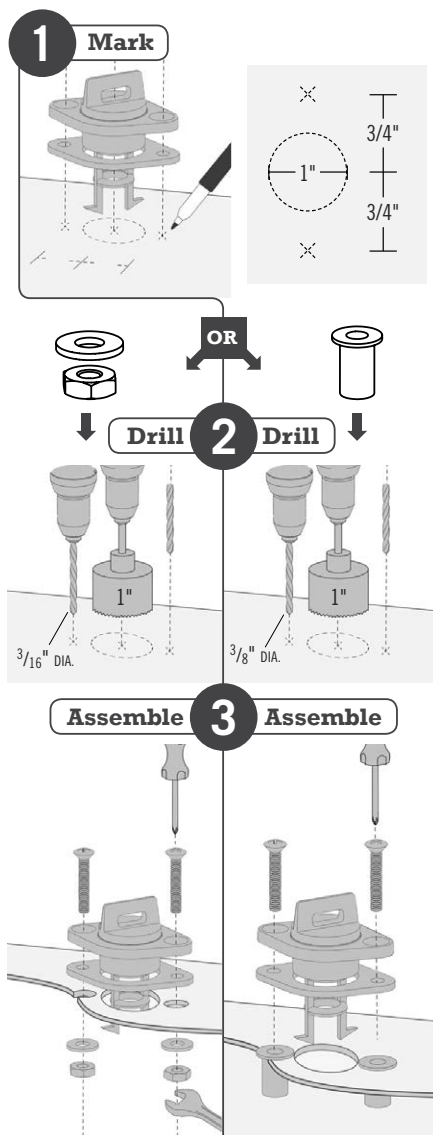

Since not all projects are the same, we have included two styles of fasteners to insure that you can complete the project whether you have access to the backside of the mounting surface or not.

Easy to Read Instructions

Illustrated installation instructions provide easy to follow steps so you spend less time with a screwdriver and more time with a paddle.

DRAIN PLUG & BASE Installation Instructions

Hatches

We carry an array of hatch covers designed to be interchangeable with the most common sizes on the market manufactured by VCP and Kajak Sport. Made in the USA, in a choice of materials, we have the right fit for your boat!

PERFORMANCE

Narrow Oval
K745250-1

Wide Oval
K745260-1

VCP Oval
K745270-1

PERFORMANCE

- Superior Watertight Seal
- Hard Dome Insert (UV Resistant)
- Buoyant Material
- Stylish Matte Finish
- Easy to Attach/Remove

RECREATIONAL

- UV Resistant Rubber Design
- Pre-Stretched, Non-Sagging Fit
- Buoyant Material
- Economically Priced
- Commonly Used For Round Day Hatch

Trucourse™ Rudder

K748150-3

Footbraces

To make footbraces easier to sell, we've reduced our number of SKU's, while still providing a full selection to fit your mounting pattern. In our Kayak Adjustable Line, you now have a choice of three basic models. You can also purchase a separate Short Flag Kit (K747380-1) to transform your footbrace and fit those tight cockpits. Or for you boat builders, just purchase a Stud Mount Kit (K747270-1) to glue or glass any footbrace kit in place.

RECREATIONAL

**Kayak Recreational
Footbrace, Stud Mount**
K747510-1

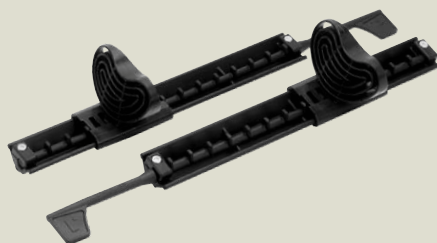

**Kayak Recreational
Footbrace, Thru Hull**
K747520-1

**Kayak Recreational
Footbrace w/ Rudder Control**
K747600-1

ADJUSTABLE

**Kayak Adjustable
Footbrace**
K747100B-1

**Kayak Adjustable
Footbrace w/ Rudder Control**
K747200B-1

**Kayak Adjustable
Footbrace Low Profile**
K747300B-1

Dealer Panel Programs
